

Main Goal

Build strength and muscle while staying lean, energized, and in control of your health. As a high-level executive and father of two, your biggest challenge is accountability. You don't need another trainer counting reps; you need a **high level coach who integrates fitness, nutrition, and mindset into your demanding lifestyle.**

Phase 1: Real-World Nutrition for Type 1 Diabetes

Your nutrition strategy needs to be simple, sustainable, and supportive of blood sugar management.

✅ **Food & Glucose Intake Review** – We'll track your nutrition alongside your glucose data to spot trends.

✅ **Smart Tracking** – Light logging or photo-based tracking in MyFitnessPal (no micromanaging every gram).

✅ **Protein Anchors** – Structuring meals around lean protein to support muscle growth and stable blood sugar.

✅ **Travel-Proof Plan** – Restaurant menus, airport hacks, and hotel strategies that keep you on track anywhere.

📌 *Why this matters:* Proper fueling reduces energy crashes, improves recovery, and makes muscle-building safer and more effective with Type 1 management.

Phase 2: Precision Workouts for a Busy Executive

Your workouts need to fit into your schedule, whether you're at home, in the gym, or on the road.

✅ **Custom Strength Program** – 3–4 workouts/week, structured for efficiency (30–45 minutes).

✅ **Accountability System** – Each workout delivered as a checklist inside your app. You'll "check off" tasks daily, building consistency.

✅ **Progressive Overload** – Smart progression focused on muscle activation, not endless cardio.

✅ **Travel + Hotel Plans** – Equipment-free or minimal-equipment workouts ready whenever you're traveling.

💡 *Why this matters:* You'll finally have a structure that keeps you accountable even when life gets chaotic.

🌍 **Phase 3: Lifestyle Integration & Support**

We'll focus on systems that stick for the long term.

✅ **On-the-Go Nutrition Guides** – What to order at business dinners, events, or travel stops.

✅ **Mindset & Stress Management** – Executives succeed with frameworks, not motivation. I'll help you build systems that compound.

✅ **Family Integration** – Fitness and nutrition strategies that allow you to lead by example at home.

👉 **Executive Mentorship & Accountability**

✅ **Weekly 1:1 Calls** – Review wins, problem-solve roadblocks, and adjust strategies.

✅ **Daily Accountability** – Every workout, meal log, or travel plan checked off inside the app.

✅ **Direct Messaging Access** – Real-time answers to "what should I eat?" or "how do I modify this workout?"

✅ **Proactive Adjustments** – I monitor your progress, not just react—so you're always one step ahead.

Investment Options

This is a premium program built to match your lifestyle and deliver long-term results.

✓ **12 Weeks – \$4,000**

✓ **6 Months – \$7,000** *(best balance of results + travel integration)*

✓ **12 Months – \$12,000** *(full transformation + lifestyle mastery)*

⚡ **Bottom line:** You don't need another trainer—you need a system, a coach, and accountability designed for the demands of an executive lifestyle. This program will give you structure, confidence, and results while traveling, leading, and living life at full speed.
